## Education

---

Chitkara University, Rajpura  
B.E. Computer Science & Engineering

Expected 2027

Focus: Software Development, Networking, Emerging Technologies

## Projects

---

- Flight Management System | Java, File I/O, OOP
  - Console-based application with role-based access (Admin, Agent, Passenger).
  - Implemented file-based input/output, booking logs, simulated payments, and food selection.
  - Applied OOP principles and data structures for modular design.
- User Management System | Bash Scripting, Dialog
  - Terminal-based tool for adding, modifying, deleting users with validations.
  - Integrated session logging and login tracker with GUI-like dialog interface.
- Product-Management-API | Node.js, Express.js
  - Built a RESTful API for product management with full CRUD functionality.
  - Implemented input validation, centralized error handling, and modular middleware for scalability.

and more...

## Experience

---

Virtual Intern – Deloitte Australia (Forage)

Aug 2025

### Technology, Cybersecurity & Data Analytics Job Simulations

- Developed prototype client dashboard for visualizing key metrics.
- Analyzed web activity logs for suspicious user activity and supported breach response.
- Built Tableau dashboard and used Excel for forensic dataset analysis.

## Technical Skills

---

**Programming:** C, C++, Java, JavaScript, Python

**Web Development:** HTML, CSS, Node.js, Express.js

**Databases:** SQL, MySQL, MongoDB

**Networking:** Network Design, Cisco Packet Tracer

**Other:** OOP, API Development, Middleware

## Certificates

---

- Blockchain Scalability & Foundations in Distributed Systems
- Akamai Network Engineering
- Transacting on the Blockchain
- Cloud Data Engineering
- Blockchain Opportunity Analysis
- Graphic Design
- Networking Fundamentals

and more...
